

## PROJECT DESIGN PHASE - II

|               |  |
|---------------|--|
| Date          | 10 October 2022  |
| Team ID       | PNT2022TMID27902                                       |
| Project Name  | AI – Powered Nutrition Analyzer for Fitness Enthusiast |
| Maximum Marks | 4 Marks  |

### DATA FLOW DIAGRAM

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

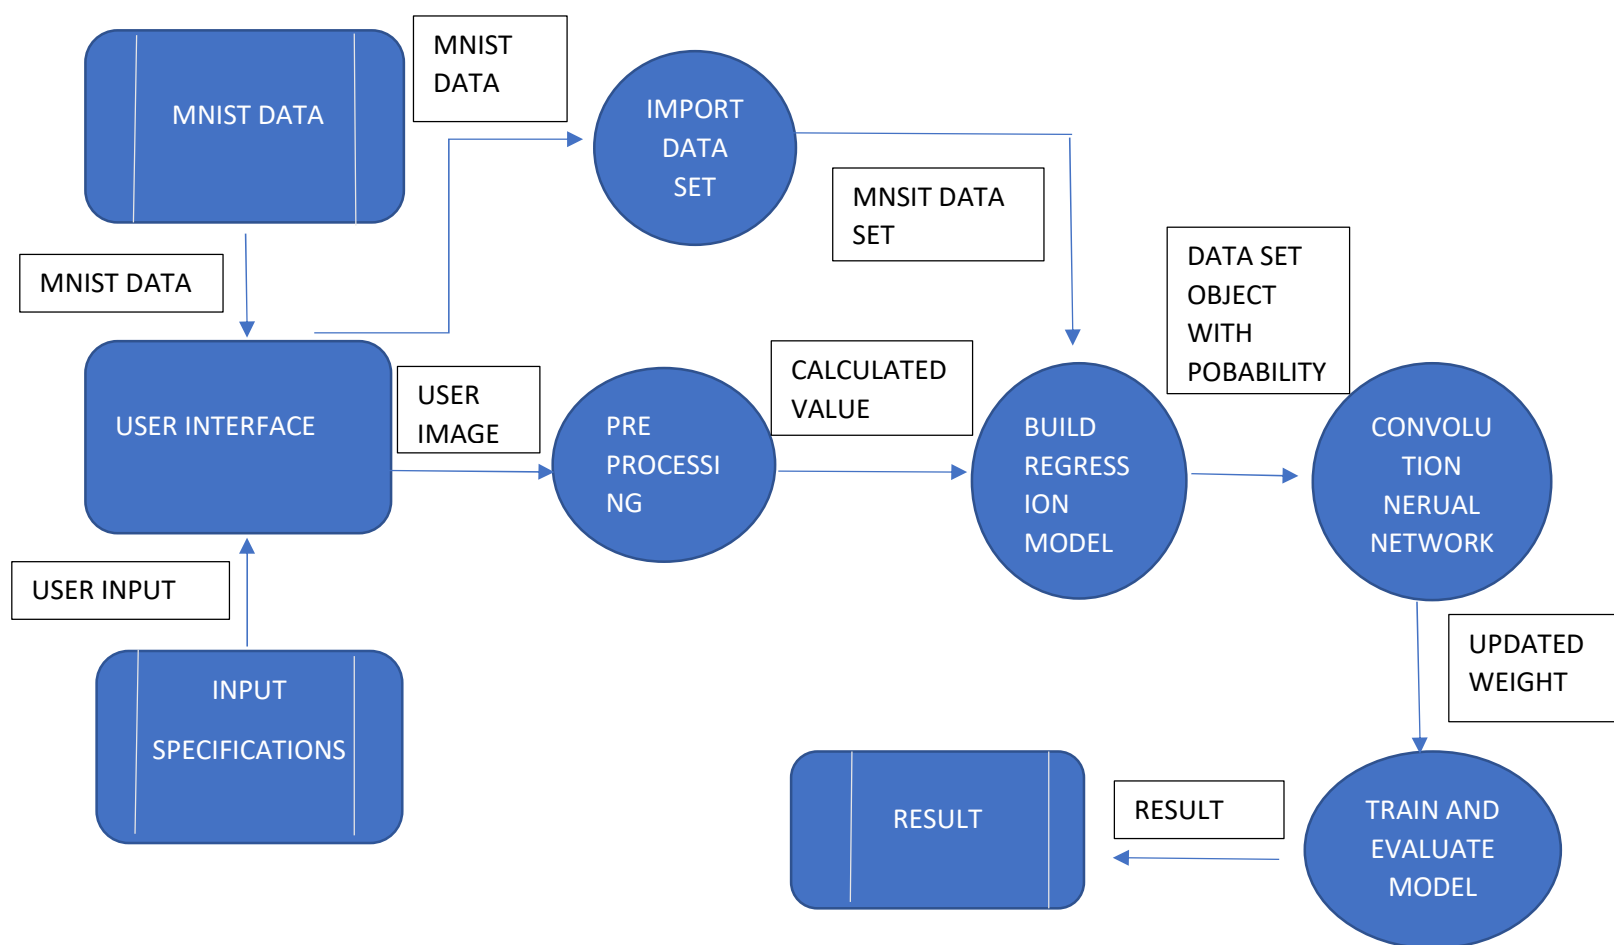

#### DFD Level-0

The DFD Level-0 consists of two external entities, the UI and the Output, along with a process, representing the CNN for process. Output is obtained after processing.

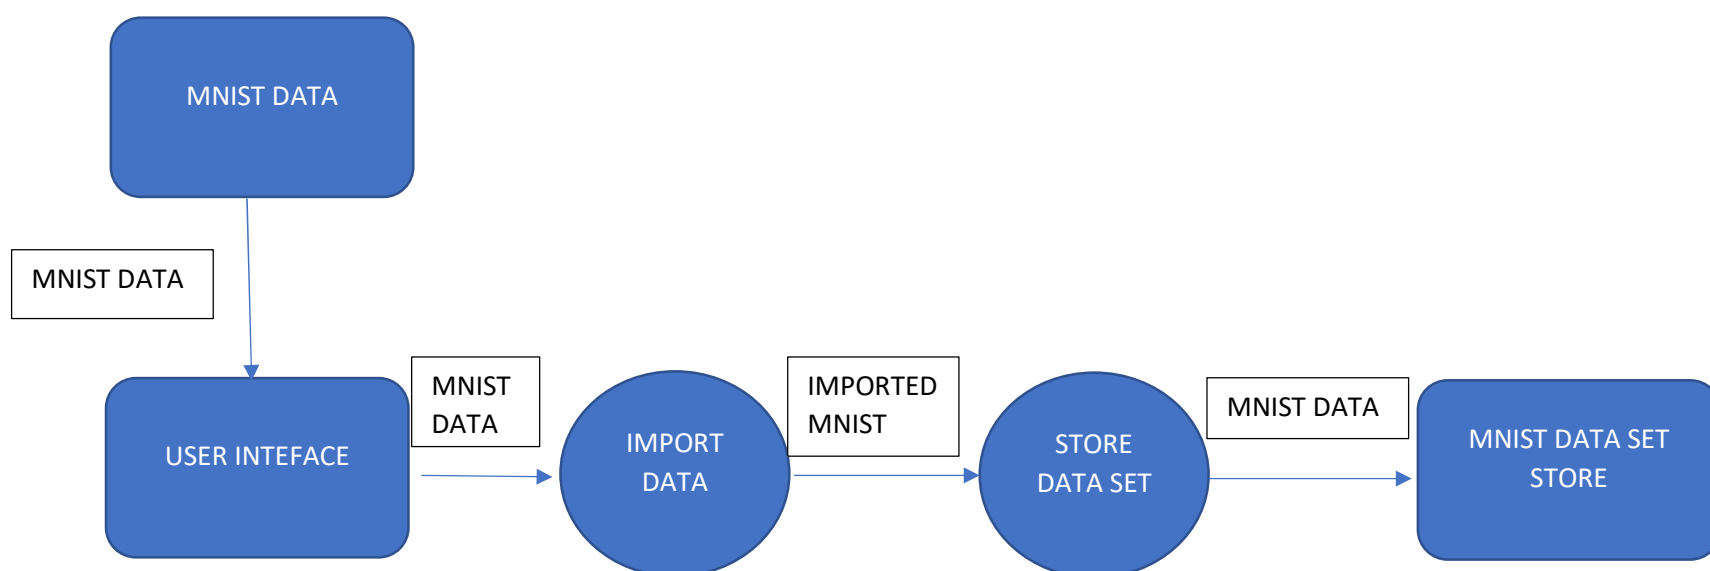

#### DFD Level-1

The DFD Level-1 consists of 2 external entities, the GUI and the Output, along with five process blocks and 2 data stores MNIST data and the Input image store, representing the internal workings of the CNN for process. Process block imports MNIST data from library. Process the specifications and process it and sends it to block where regression model is built. It sends objects with probabilities to CNN where weights are updated and multiple layers are built. Block trains and evaluates the model to generate output.

## DFD Level-2

The DFD Level-2 for import data (figure 4) consists of two external data and one entity UI along with three process blocks, representing the three functionalities of the CNN for Digit Recognition System. It imports data from MNIST data store and stores on the system.

## USER STORIES

| User Type               | Functional Requirement (Epic) | User Story Number | User Story / Task   | Acceptance criteria  | Priority | Release  |
|-------------------------|-------------------------------|-------------------|---|--|----------|----------|
| Customer (Mobile user)  | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password. | I can access my account / dashboard  | High     | Sprint-1 |
|                         |                               | USN-2             | As a user, I will receive confirmation email once I have registered for the application                   | I can receive confirmation email & click confirm   | High     | Sprint-2 |
|                         |                               | USN-3             | As a user, I can register for the application through gmail or facebook                                   | I can register & access the dashboard with Facebook Login                                  | Medium   | Sprint-2 |
|                         | Login                         | USN-4             | As a user, I can log into the application by entering email & password                                    | I can login to the application   | High     | Sprint-1 |
|                         | Dashboard                     | USN-5             | Go to dashboard and refer the content about our project   | I can read instructions also and the home page is user-friendly.                           | Low      | Sprint-1 |
|                         | specifications                | USN-6             | As a user, I can able to input the specifications   | As a user, I can able to input the specifications  | High     | Sprint-3 |
|                         | Predict                       | USN-7             | As a user I can able to get the proper nutrition analyser techniques.                                     | I can access the recognized nutrition analyser techniques.                                 | High     | Sprint-3 |
|                         |                               | USN-8             | As a user, I will train and test the input to get the maximum accuracy of output.                         | I can able to train and test the application until it gets maximum accuracy of the result. | Medium   | Sprint-4 |
| Customer (Web user)     | Login                         | USN-9             | As a user, I can use the application by entering my email, password.                                      | I can access my account  | Medium   | Sprint-4 |
| Customer Care Executive | Dashboard                     | USN-10            | upload the image  | Recognize and get the output   | High     | Sprint-1 |
| Administrator           | Security                      | USN-11            | updated the features  | checking the security  | Medium   | Sprint-1 |
